

REVIEW of WorldMike's Ultimate Bowling School (2010)

Roberta Hafner, USBC Sport Bowling Director and USBC Silver Certified Coach recently attended *WorldMike's Bowling School* in South Florida. It was a 3-day clinic that was not only impressive; it was one of the best clinics I've ever attended.

WorldMike's Ultimate Bowling School

Was clinic run by a professional coach?	Yes, this clinic was run by Mike Nyitray, world-class Gold Coach and one of the tops in the business.
Was it a good value?	3 days for \$550.00, including a ball and drilling. Since the ball and drilling is worth approx. \$200, the clinic fee is really only \$350.00. Yes, it's worth it.
Was it necessary to have professional touring PBA bowlers there?	Although it's impressive to be able to get coached by the pros you see on TV, I feel that a good coaching staff is probably what is most important. This clinic was run by USBC Certified Gold Coach, Mike Nyitray, a former PBA member and team USA member.
What was the teaching format?	<p>The last 6 lanes of the center were blocked off so we had our own "area". The video and graphic presentations were given right on the lanes. This way when an idea was presented graphically, Mike was able to show the application right away on the lane. I have talked to many bowlers who get bored when they attend the classroom portion of bowling clinics but not here.</p> <p>Mike's presentations had easy-to-understand graphics with ideas and concepts presented in a format I have never seen. Without question, these were the best graphic presentations I've ever seen and backed up by actual on lane application.</p>
I am attending this clinic because of a problem with my knee. This has affected my average and self-confidence and I have considered giving up the sport.	NO PAIN! Yes, he taught me a style where there is no pain. I now stand straighter with less knee bend and still can score. Why didn't I think of that? Obviously there was more to it than just that, but I can bowl with no pain now and I am very very happy. Also, I think with some practice, I can get very close to my previous scoring ability.
What did others expect from clinic?	One gentleman was a high end bowler averaging 238 in league but when it came to the more difficult "sport" and "open" patterns he was having difficulty scoring. Within the first day Mike fixed something in his style that automatically made him extend through the ball and get more on it. Overall, everyone who attended was very happy.
Where does this clinic rate when compared to other clinics I've attended?	<p>I've attended many clinics over the years and have even given clinics. From my days in Anchorage when I helped coach a young Sean Rash to recent clinics around the globe.</p> <p>So I've been on both the giving and receiving end of clinics and I have to say, this might be the best bowling clinic I have ever attended. There was no "cookie cutter" approach. Each bowler had a different style and Mike respected that.</p>
Overall Comments	<p>If you want to bowl better, invest in a bowling lesson before you buy your next ball. After working with a coach you may find you don't need a new ball. Your new-found skill and confidence may have that old ball scoring in a way you never imagined.</p> <p>If you considering attending a bowling clinic, I would highly recommend <i>WorldMike's Ultimate Bowling School</i> in South Florida.</p>
